Subject: RE: Monthly Call with TCEQ tomorrow, December 17, 2015
Date: Wednesday, December 16, 2015 10:03:00 AM

Carlos,

San Jacinto Waste Pits Update:

1. COE proceeding with their draft report revisions & modelling work on severe storm/prop wash/parameter sensitivity studies; expect final report March 2016.
2. Dive team inspection 12/9 & 12/10/15 – found gap in armor cap in shallow water in northwest area – repair plan is being prepared by PRPs.
3. Ground water/Surface water/Sediment/Pore water sampling plans – comments from reviewers on all plans due 1/10/16; pore water sampling plan comments sent to PRPs with requirement to revise & re-submit plan; main issue: passive sample detection limit needs to be lower to achieve TX surface water quality standard for dioxin.

Gulfco Five Year Review: 5-year review newspaper notice published in The Facts 11/17/15; EPA, TCEQ, PRP, and SKEO (EPA contractor) completed site inspection 12/3/15; draft report expected for review Feb/March 2016.

Regards,

Gary Miller

Subject: Monthly Call with TCEQ tomorrow, December 17, 2015

We are scheduled to have our monthly call with TCEQ tomorrow (12/17/15) morning. Please provide a quick update for your sites by COB today (12/16/15).
Also, let me know if there are items/issues that we need to add to the agenda. Thanks CAS
